**DETAILED ACTION**

1. This Office action is in response to Applicant's amendment, filed on 02/06/2003.
2. Claims 20-23 are remained and claims 84-85 are added.
3. The rejection to claims 20-23 under 35 U.S.C. 102 (a) as being anticipated by Jordan (WO 9825373) as set forth in the Office action mailed on 10/30/2002 is maintained.

***Claim Rejections - 35 USC § 102***

4. **The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:**

**A person shall be entitled to a patent unless -**

**Art Unit: 3621**

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

**5. Claims 20-23 are rejected under 35 U.S.C. 102 (a) as being anticipated by Glogau, Jordan (WO 9825373).**

As per claims 20-23, Glogau discloses a copy protection system/method that protects web sites (web sites or content distributed) and other works in computer readable form from unauthorized access and/or reproduction (which is readable as Applicant's claimed invention wherein it is stated that a method of receiving compensation for a security system for protecting content distributed on a network), comprising:

selling (terms and condition) a server security program to a content provider (see., abstract, or selling web sites to authorize user, page 19, lines 3-20, terms and condition);

selling a plurality of copies for a limited-use program to the content provider for licensing to users wishing to access the content (see., abstract, page 5, lines 6-20, page 9, lines 22 and 23, page 10, lines 1-24, page 11, lines 1-20, page 19, lines 3-20).

As per claims 84 and 85, Jordan discloses a copy protection system/method that protects web sites (web sites or content distributed) and other works in computer readable form from unauthorized access and/or reproduction (which is readable as Applicant's claimed invention wherein it is stated that a method of receiving compensation for a security system for protecting content distributed on a network), comprising:

**Art Unit: 3621**

providing network accessible protected content from a source (see., abstract, selling web sites to authorize user (or protected content or protected web sites, page 19, lines 3-20); authorize downloading of protected content from a source to a client system (see., abstract, specifically wherein it is stated that upon passing the test, the copy protection system grants the end-user a license and enables the end-user to download software that facilitates access); preventing non-ephemeral reproduction of the downloaded content by the client system until compensation is received (see., page 5, lines 6-20, specifically wherein it is stated that a licensed or authorized end-user may download site copying software to an associated end-user computer system from the copy protection system server..).

**RESPONSE TO ARGUMENTS**

6. Applicant's arguments filed on 02/06/2003 have been fully considered but they are not persuasive.

**REMARKS**

7. In response to Applicant's arguments, Applicant argues that the prior art of record Glogau, Jordan fails to disclose the limitation of "selling a server security program to a content provider". As indicated above, this limitation is disclosed by Glogau in page 19, lines 3-20, specifically wherein it is stated that upon visiting a protected site (or server security program) the end-user is presented with terms and conditions for accessing protected web site material and using the site copying software...,

**Art Unit: 3621**

Applicant should duly note the terms and conditions are readable as a process of selling web site or copying software or server security program).

***Conclusion***

**8. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

**9. WO 9844402 Bramhill et al.**

This patent discloses a copyright protection scheme in which data is download from a server see., abstract, which can also read on claims 20-23 and 84-85.
